

Turkey feeds

...your first choice

Combining exceptional local knowledge, the customer service and attention you expect from a business based on family values and the outstanding technical expertise you would demand from a leading manufacturer of quality animal feeds, Harpers Feeds are trusted by farmers across the South West.

We know all farms have different requirements so pride ourselves on having products to suit all systems and for all species, whether ruminant or monogastric. We manufacture compounds and blends and supply straights, supplements and speciality feeds as well as forage seeds and additives. Feeds are available in an extensive range of physical forms and pack sizes to give exceptional choice.

All manufactured feeds are supplied as fixed formulations so you know the next load will be the same as the last, ensuring consistent performance. Whatever your requirements, Harpers Feeds can provide feeding solutions to deliver outstanding performance.

Focused on turkey nutrition

Harpers Feeds have developed a range of rations that will improve flock performance while maintaining a profitable business.

We understand the importance of high quality, well finished turkeys for the traditional Christmas market.

Our turkey range is formulated using traditional top quality ingredients to provide a well- balanced supply of energy and protein to meet the birds requirements and to produce a well- finished traditional turkey.

Vitamin E is included in all our diets to support the birds, health and immunity, particularly when they are faced with stress and disease.

The turkey range

Turkey Starter Crumb (ACS included)

A very palatable crumb to encourage early feed intake to give a flying start to day old turkey poults.
Feed from 0- 3 weeks.

Turkey Rearer Pellet (ACS included)

The perfect follow on ration from our starter crumb to maintain growth and development.
Feed from 4 - 8 weeks.

Turkey Super Grower Pellet (ACS included)

Designed to help birds achieve optimum growth rates.
Feed from 9 - 12 weeks.

Turkey Grower Pellet

Our grower pellets help maintain good growth through a balanced supply of all key nutrients.
Feed from 13 - 16 weeks.

Turkey Top Finisher Pellet

With balanced levels of protein and energy, our top finisher will provide a healthy, well- finished turkey with good fat cover.
Feed from 17 - 20+ weeks.

Bio-Mos

Bio-Mos has been incorporated into all our turkey diets to improve gut health and immune function and is, therefore, a benefit to flock performance.

Bio-Mos has proven to:

- Improve turkey performance
- Improve turkey growth performance
- Leave the good bugs along to help protect the gut
- Help to maintain healthy immune system
- Improve gut health and overall health
