

Technical & Quality Systems Coordinator

We are looking for a motivated and detail-oriented Technical & Quality Systems Coordinator to join our Operations team at Harpers Feeds, a leading family-owned manufacturer of high quality animal feed delivering to trade and farm customers throughout the South West

The Role

You will play a key role in supporting product quality, technical operations, and formulation processes, ensuring compliance, accuracy, and continuous improvement across the business.

Key Responsibilities

- Provide technical and product support to internal teams, customers, and feed specialists
- Ensure product quality through accurate testing and data analysis
- Maintain compliance as part of the audit team
- Manage formulations, product setup, and labelling in line with current legislation
- Support sustainability initiatives and liaise with suppliers and customers

About You

- Agricultural / Science qualification (desirable)
- Background in agriculture (desirable)
- Strong attention to detail and numerical skills
- Excellent communication and organisational skills
- Confident using IT systems (Microsoft Office/Outlook)
- Able to work independently and as part of a team
- Strong problem-solving skills with the ability to prioritise workload

What We Offer

- A varied and engaging role within a supportive team
- Training & development opportunities
- Health care scheme (providing cashback on dental/opticians/medical/physio etc. as well as confidential Employee Assistant Programme to support with health, welfare, financial & legal advice)
- Discretionary Occupational Sick Pay
- Office-based role with occasional travel

Working Hours

- 37.5 hours per week Monday to Friday 9.00am – 5.00pm (7.5 hour day with additional ½ hour unpaid lunch).

To apply for this position, please email your CV and covering letter to HR@harpersfeeds.co.uk or apply via Indeed
